Subject: Thanks much for your visit

Just finished listening Mr. Roever's presentation two hours ago at Al Udeid Air Base Qatar. Although I've been familiar with his story and testimony for fifteen years, today was the first chance I had to meet him. I was very impressed with his presentation. It makes an even deeper impression hearing it in person. No one left the area without a hand shake and a hug! Greatly appreciated during separations from home. He has an unmistakeable sincerity uncommon in this day and time; I was honestly convinced he meant everything that he said to us. I wish there were a thousand more of him as well as his wife (she must be a super-hero)! He gave me a renewed urge to straighten up what can best be described as a very inconsistent walk over the twenty years. I hope to meet and introduce him to my family sometime state-side. Thanks again for coming to Qatar!!
