

*I really enjoyed listening to Dave. He has a gift. I still talk about his speech to this day when I speak about how there are vets out there from Nam that take us under their wing. It means a lot. He is the best speaker...we were pumped up...a lot of that motivation was after we listened to Dave and what he overcame and the fact that he is passing that knowledge down to us newer vets. I listen to his CD all the time. I take it everywhere.*
