To whom it may concern:

It is my pleasure to write this letter as a recommendation and in support of Dave Roevers' presentations.

Dave Roevers has completed seventeen presentations for the Butler Technology and Career Development Schools over the past seven years and two presentations with the Greene County Career Center this past year. These presentations were viewed by over 11,000 students from 23 high schools in southwest Ohio. Dave's presentation included his personal story of triumph and several tips for the students on how to be successful with their personal and professional lives.

In preparation for the events, Dave's staff did an admirable job in communicating their expectations and needs for the presentation. His traveling staff also communicated well and worked with all Butler Tech and Greene County Career Center personnel in a positive manner. This staff exudes professionalism and ethical practice.

I have been involved in public education as an instructor and administrator for 18 years, and I am confident in saying that Dave Roevers is the most powerful and uplifting "live" presenter I have had the pleasure to work with. His message of hope and positive self-esteem is inspirational and motivational. Due to the overwhelming response from our students and staff, we have already scheduled Dave to return on October 7, 2011 for a day of presentations.

I highly recommend Dave Roevers for your organization's presentation needs. His message will motivate those in attendance and his staff will work with you in a professional manner.

Sincerely,
